Ghee

Good Juju

Our magical ghee is made in small batches with organic, cultured butter from cows raised on pasture. Ghee is an ancient food that is known in Ayurveda for its nourishing qualities and rich taste. The origins and benefits of ghee in Ayurvedic medicine date back more than 5000 years! It is known to stoke your digestion and aid in getting the nourishment deep into your tissues. A true food as medicine! On top of the numerous benefits of ghee, Good Juju Ghee is made on the waxing or full moon, infusing the ghee with extra good juju.
